

Simple Privacy Notice (Mock Example – English)

This is a mock privacy notice provided for DEVELOPMENT AND TESTING PURPOSES ONLY. It is not legal advice and must not be used as a final, production-ready privacy policy.

1. Who We Are [App Name] ("we", "our", "us") is a mobile application designed for [short app description]. This document explains how we handle personal data in the context of the app.

2. What Data We Collect Depending on how you use the app, we may collect the following types of information: • Basic usage data (e.g. screens visited, button taps, crash logs) • Device information (e.g. device model, operating system version) • Optional account information you provide (e.g. name, email address) • Any content you voluntarily submit through the app (e.g. feedback forms, messages)

3. How We Use the Data We may use the collected data to: • Provide and operate the app's features • Improve the stability and performance of the app • Fix bugs and understand usage patterns • Communicate with you about important updates or issues related to the app

4. Legal Basis (If Applicable) Where required by applicable law, we rely on one or more of the following legal bases: • Your consent • Our legitimate interests in operating and improving the app • Compliance with legal obligations

5. Data Sharing We do not sell your personal data. We may share data with service providers (such as analytics or crash reporting tools) strictly for the purpose of operating and improving the app. These providers are required to protect your data and use it only according to our instructions.

6. Data Retention We keep your data only for as long as necessary for the purposes described in this notice, unless a longer retention period is required or permitted by law.

7. Your Rights Depending on your location, you may have certain rights regarding your personal data, such as the right to: • Access your data • Request correction or deletion • Object to or restrict certain processing • Withdraw consent where processing is based on consent

To exercise these rights, please contact us using the details below.

8. Contact If you have any questions about this mock privacy notice or how data is handled in this app, you can contact us at: [Your Company Name] [Contact Email Address]

9. Changes to This Notice We may update this mock notice from time to time to reflect changes in the app or in applicable laws. The updated version will be made available within the app.

IMPORTANT: This document is a SAMPLE ONLY for development and testing. You should consult with a qualified legal professional to create a privacy notice that fully complies with all applicable laws and platform requirements (including the Apple App Store Review Guidelines).

Additional Sample Content (English) – Page 2 for Scrolling Tests

This second page is intentionally included so that you can test scrolling behavior, page transitions, and any custom UI you have built around PDFView or other document display components in your iOS application.

You may duplicate, replace, or extend this text as needed. The important point is simply that this file contains more than one page, which allows you to verify that gestures such as vertical scrolling, page swiping, or zooming behave as expected in different layouts (e.g. full screen, split view, or slide-over).

You can also use this page to test accessibility scenarios, such as VoiceOver reading order and focus movement between pages, depending on how your viewer is implemented.
